***This Year's Theme is "Violet Flame Initiations"***

**Using The Four Aspects of The Violet Flame / Violet Flame Meditation / Anchorings / Mantras**

**What to Bring** - Good walking shoes or boots. Warm clothes and layering is essential when you are high on the mountain. Also bring shorts & swimsuit as the days are hot in town.

**Purpose** - Together in reverence, love and gratitude we upgrade our etheric body (light body), before the almighty Mount Shasta and connect at every multi-dimensional aspect of our true nature. The four cones of fire in the volcano, supply an immense abundance of electro-magnetic energies that allow grand transformations and miracles to take place, and even more magnified at the many portal spots we visit.

Connecting with the mighty Brotherhood of Mount Shasta, the All-Consuming

Violet Flame, the Ancient Melchizedek Temple, the Pleiadians, Sirians & Venusian presence, the Akashic Records, Archangel Gabriel and consort Mother Hope and the eldest presence of Ra Mu & Rama Mu. Sharing the inner earth mysteries, we focus on Telos (the subterranean city) that is inside Mt. Shasta, with all its magical attributes. We also gather to anchor an “Etheric Violet Pillar” on Mount Shasta, for the upgrade of the world’s magnetic web or leylines, of the Seventh Golden Age of Aquarius, and for the Seventh Root Race. Through these actions, we gain so much more for our spirit, as our soul only registers “truth” through actual experiences. This is the 18th Annual Conclave here on the volcano, and the sole purpose and mission is for each soul to have his/her own magical precipitations, manifestations and transformations with fifth-dimensional (and higher) light frequencies. The reality is that the fifth dimension (oneness) has never left Mount Shasta. This electro-magnetic, four-coned volcanic vortex is a One-Of-A-Kind in the whole of the world. There are other sacred mountains of the world that hold fifth-dimensional frequencies, but Mount Shasta is the only place on Earth that expresses so many different multi-dimensional aspects and frequencies simultaneously, with an unparalleled acceleration and magnification. There are over 20 portals on & around the volcano.

Saint Germain guides and teaches through experience. This conclave has no classrooms, we meet each day and go from one portal to the next, in what he term's “Experiential Touring” to activate our consciousness at even a finer rate, and truly live the experience. To stand at the portals (gateways or doorways) and be in the sacred states of meditation, affirmation and visualization. Mystic inner journeys and high teachings are revealed, as we become part of the portals!

**Mount Shasta is vibrating at such a fine degree**, that if the protons were to spin at even just a slightly higher rate, the whole of Mount Shasta would literally be invisible, radiating at the higher dimensions. This is one of the world’s “Seven Sacred Mountains”. Come Embrace The Elder Crown Chakra of Lemuria and The Present-Day Crown Chakra of The Aquarian Age, MOUNT SHASTA.
