

Come and stand in your own mastery alongside Saint Germain, the master alchemist, in the this very rare opportunity, as he visits Romania for the very first time.

As master of the Violet Flame, the flame of alchemy and God's true loving gifts of forgiveness, mercy, transmutation and transformation, he leads us first-hand, through simple self-mastery techniques. Giving oneself more inner freedom and a fullness yet rarely attained in the physical, emotional, mental and spiritual bodies.

Embrace new heights of instant synchronization on a daily basis, and be an everlasting beacon of fire that no one can put out. Alchemy allows us to be eternally sustained and maintained in cosmic order and divine justice. In complete harmony, balance and joy. For the true alchemist lives a full life, rich in spirit, where dreams constantly manifest. Where thought is our reality. And knowing that is the natural law, that miracles are abundant, everywhere, and all the time.

Living in the now, and lead only be the intuition, there lies a constancy and everlasting suspension of time and space, where we are embracing unconditional love, the one with all. From complete majesty and reverence in the heart, come celebrate the full activation our inner Alchemist!
